### **We can now accept credit cards!!!**

We are using PAYPAL. However, due to the complexity of the information we need on our forms to process Equine Registrations, Memberships, orders from our online store, and the limitations and complexity of our web site, you will not be able to do "ADD TO CART" or "CHECK OUT". We have included on our forms the information we will need to process your credit card, or you can call Robin at 732-742-5044 to process credit card by phone and mail forms to USWHBA 23 Hooker St. Jamesburg, NJ 08831.

**Your Personal information is safe. The US Wild Horse and Burro Association is committed to ensuring that any personal information received is safeguarded against unauthorized disclosure.**

Due to the economy, we have also changed our prices on our T-shirts, and we now have hats too.

## **Our Newest Directors.**

We would also like to welcome John Dodson Sr. and Diane M. Hart to our organization. They are our newest Directors in New York. John and Diane have already been doing a lot of promoting for the mustangs and burros, our organization, and promoting the Ithaca adoption coming this July. John and Diane are long time adopters, and are doing events at Tractor Supply's and other horse and farm events in their area.

## **New Available Mustang.**

Meet America on our "mustangs available" page. America is a 19 year old mustang mare from Nevada, who was abandoned at the barn where she was boarded. She may have been ridden but we are working her as if she had not to make sure she has good foundation. America is very sweet, easy to lead, and a really pretty mover.
